Awingu.com

One Workspace. Any Device. Anywhere.

One Workspace. Any Device. Anywhere.

Awingu offers highly secure and audited access to your company files and legacy, web and SaaS applications in a browser-based unified workspace, on any device.

Any Device

Access the same workspace anywhere, on any device, via any web browser.

Secure

Provide a highly secure and audited access to all your applications and files.

Simple

Easy to install, manage and use, both for the user and the administrator.

Cost-efficient

Drives cost reduction compared to alternative solutions, and optimises TCO up to 81%.

Simple And Non-intrusive Architecture

Awingu is non-intrusive and builds on top of your current architecture. It is deployed as a virtual appliance on all common hypervisors and will connect with standard protocols to your existing IT assets (e.g. RDP, WebDAV, LDAP). For end users, everything is available in a browser via Awingu's online workspace. No need to install agents, plug-ins, etc.
