

Cloud Business Phones

Cloud Business Phones provides a comprehensive range of features that allow businesses to link their fixed and mobile telephony easily and efficiently, helping them to bring their phones into the future to improve their productivity and corporate image.

Features and Benefits:

Flexible

- Add or remove functionality in line with your customers' requirements with the click of a button
- Users can move freely between devices
- See the availability of all users in the network, at any time, for ultimate time efficiency
- Optional: whitelabel as your own service

Reliable

- Industry-leading uptime
- A platform built to last (established 2005)
- Monitor and interrogate call traffic for peak performance with customisable reporting
- Optional: portal management service by the Cloud Business Team

Scalable

- Add on licences whenever
- Store contacts and voicemails centrally for complete business oversight
- Comprehensive import functionality for rapid onboarding of staff
- Central management console for customisation of services as required
