Handles redactions and exemptions	✓	✓
Up to 94% cost reduction compared to doing in-house	✓	Cost depends on service level, complexity & use of service

Objection handling

“I’m concerned about sharing sensitive data with a third-party”: All data is handled under strict confidentiality agreements using secure, encrypted workflows that meet UK GDPR and CCPA standards.

“We’d rather manage DSARs internally to stay in control”: This service will act as an extension of your team with transparency, audit trails and complete control over approvals but allowing you to free up your team’s resources.

“I’ve not heard of Contextul”: Contextul’s team have delivered expert DSAR services using their own proprietary software which has been developed for over a decade.
